---

## Engineer Test and Measurement

---

### Your Tasks

You are responsible for hardware and software product validation. You are part of a team which is in charge of automotive product verification and provides evidence of both conformance to international standards, internal and marketing requirements.

Your tasks include:

- Verification and validation of infotainment systems
- Analyzing requirements, designing and executing tests
- Analyzing test results and record errors
- Closely working with our development team
- Continuous integration and delivery
- Contributing to the test environment being used

### Our Requirements

You have a degree in electrical engineering, computer science, telecommunications or a comparable qualification. You have at least three years of professional experience in embedded and automation testing, preferably in the automotive field.

You have a solid background in:

- Working on an RTOS platform for embedded systems in infotainment domain
- Programming in Python/C/C++
- Jenkins and version control tools such as Git, SVN
- Raising bugs using tools like Bugzilla, DCT etc.
- Hands-on experience in a Linux environment

Knowledge in any of the following areas is welcome:

- Automotive SPICE, CMMI, ISO 26262
- Wireless communication technologies (LTE, WLAN, Bluetooth, V2X)
- Familiarity with wireless testers, spectrum analyzers, oscilloscopes, function generators
- CAN, BroadR-Reach, FlexRay, LIN, UART, USB and other wired communication technologies
- ECU Hardware testing

Your personal skills include:

- Ability to work in an interdisciplinary multi-cultured team
- Independent and self-organized work attitude contributing to team success
- Comfortable in a hands-on role
- Quick learner and creative thinker
- Structured thinking and communication
- Orientation towards problem solving and quality
- Fluent English, German is a plus

### Our offer

Hangsheng Technology GmbH in Berlin is a subsidiary of Hangsheng Electronics Co., Ltd. (HSAE) with headquarters in Shenzhen, China. As a principal supplier of automotive electronics HSAE is a worldwide operating tier-1 with more than 4.500 employees. The Research and Development Center in Berlin develops products for the rapidly advancing areas of automotive connectivity and security.

We provide:

- Team oriented working climate in an open-minded international team
- Cosmopolitan environment in the city-center of Berlin
- Full time permanent contract
- Opportunity to work on a broad variety of subjects
- Fast personal development

### Your Application

Are you interested in this challenging position in a successful company? You will be working with a motivated team in an exciting technology. Please send your complete application documents (motivation letter, CV, diplomas/certificates) by e-mail, including your availability and salary expectations.
